Save and open

After you click on save as this box will pop up I always click on Desk top then on save

After you click on save the next box pops up at the bottom of your screen
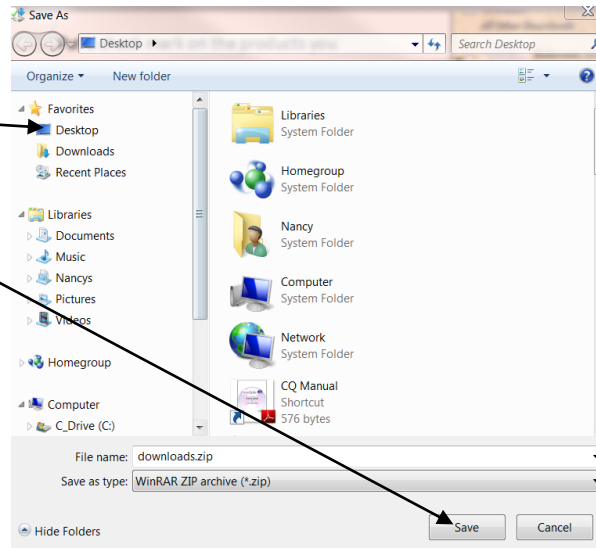

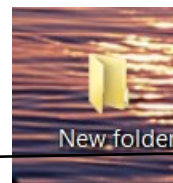

Click out of everything go to your desktop and you will a file that looks like this

Drag and drop

On your desk top right click and choose new, then folder, a new folder will then appear

Right click on the folder and choose rename, and rename it to what your new pattern is

downloads....

New folder

Dragonflies and frogs E2E

Now drag and drop your zipped downloads folder into the newly named folder. Now when you open that folder this is what it will look like

Dragonflies and frogs E2E   Search ...
Include in library   Share with ▾
Name
downloads.zip
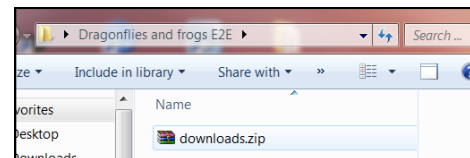

Right click on the zipped download folder and click on extract here this is what you will get
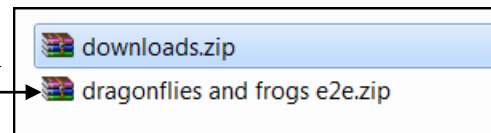

Now right click on the named pattern folder and click on, extract here, again, and this is what you will get.

Your patterns are extracted and ready to transfer to your quilting computer and use.

Note; if you try to take a zipped file to your quilting computer you will either get a blank file or a bunch of jibberish, that is the first sign that they did not unzip properly...
